4:20–5:20 p.m.

Library of the Future

[The Hunt Library](#)

A great research library is more than collections, technologies, and comfortable workspaces--a great library inspires. Its architecture and technology create spaces that encourage collaboration, reflection, creativity, and awe. At the core of the vision for the Hunt Library is the ability for our students, faculty, and partners to immerse themselves in interactive computing, multimedia creation, and large-scale visualization—tools that are enabling revolutionary ways to see and use information.

Tours (cont.)

Textiles of the Future

Wilson College of Textiles

As the only college in the United States devoted entirely to textiles, we are uniquely poised to educate new leaders, support industry and advance research within this evolving and expansive field. Learn how we have transformed the textiles industry and tour the facilities where our industry partners come to innovate.

Food and Agriculture of the Future

Lake Wheeler Field Laboratory

Agriculture built North Carolina and remains the state's largest economic driver at \$87B. No other U.S. region or state is as uniquely positioned as North Carolina to drive the agricultural innovation required to feed, fuel and clothe a growing population. Today's farms are using technology and innovation to make data-driven decisions and to change the way crops are produced. Visit the Lake Wheeler Field Laboratory, just a few miles away from campus, for a tour focusing on modernizing research stations and building future-ready farms.

Registration

Registration information for UIDP28 can be found at: uidp.org/event/uidp28. For questions regarding registration, please contact 803-777-9444 or confs@mailbox.sc.edu.
